## **Genomenon, Inc. Named TiE20 Award Winner at TiECon Detroit 2018**

ANN ARBOR, MICHIGAN, Sept 24, 2018— Genomenon, Inc. has been selected as a 2018 TiE20 Winner for the prestigious TiE20 Awards Program. The company has been recognized for its work in Next Generation Sequencing (NGS) interpretation with the Mastermind Genomic Search Engine. Mastermind assists doctors and researchers in connecting patient DNA with the most relevant medical research. The competition is a part of TiECon Detroit 2018, Michigan's largest conference for entrepreneurs.

"It's an honor to be selected among this elite list of entrepreneurs and companies by TiE20 for our leadership in applying artificial intelligence (AI) to the field of genomic interpretation.", said Mike Klein, CEO, Genomenon, Inc.

TiE20 has become a global brand that attracts thousands of companies worldwide. Selected from more than 500 nominated companies, the winners represent the most enterprising startup companies in five focus segments: Sensors/Electronics/IOT, Food/Health/Fitness, Fintech, Blockchain/AI/ML/DL and Manufacturing/In Vehicle Technologies/Mobility. TiE20 winners will present their companies to the conference attendees. They will get special invitations to premium networking sessions at TiECon and will also be part of ongoing recognition from TiE Detroit throughout the year. More importantly, they will get access to TiE's powerful global entrepreneurial ecosystem.

"TiE20 awards is where aspirations of today become an entrepreneurial reality of tomorrow. We are confident this is a first step towards identifying and to spotlight the next generation business creators in our region," said Tel K. Ganesan, President, TiE Detroit Chapter.

The TiE20 winners will be honored with awards of excellence at TiECon Detroit 2018 on Saturday, October 06, 2018, at 6:00 p.m at the Suburban Collection Showplace, 46100 Grand River Ave, Novi, Michigan.

### **About Genomenon**

Genomenon powers evidence-based genomics for pharmaceutical companies and clinical diagnostic labs. It is the home of the Mastermind Genomic Search Engine, the world's most comprehensive source of genomic evidence found in published literature.

Mastermind is used by diagnostic labs to accelerate genomic interpretation for Next Generation Sequencing (NGS) of DNA. Genomenon also licenses the Mastermind knowledgebase to pharmaceutical and life science companies to identify and prioritize genomic biomarkers for drug development, drug trial patient identification, and gene panel design.

Genomenon's unique products and services facilitate the practice of precision medicine with faster, better diagnosis and treatment options for cancer & rare diseases. For more information, visit [www.genomenon.com](http://www.genomenon.com).
